For Immediate Release**World-Renown Nature Educator Joseph Cornell Reveals His
Revolutionary Technique: *Flow Learning***

Los Angeles, CA, September 1, 2021 --- Crystal Clarity announces Joseph Bharat Cornell's newest release, *Flow Learning®: Opening Heart and Spirit Through Nature*.

Joseph Cornell's Sharing Nature® books have "sparked a worldwide revolution in nature education," and have been published in twenty-five languages and sold over a million copies.

After the success of his early works, including award-winning books *Sharing Nature* and *Deep Nature Play*, ***Flow Learning*** is the consolidated presentation of Cornell's revolutionary theory and techniques of experiential education.

Educators, social change advocates, coaches, parents and anyone looking for personal growth will be able to create truly memorable, often life-changing experiences. Cornell's revolutionary concepts and innovative techniques clear impediments to personal change and open the doors to self-mastery.

Based on universal principles of awareness and receptivity, this teaching system is harmonious with the world's great wisdom traditions, helping us to awaken our higher human potential. Using the concepts of pure feeling, clear thinking, inner stillness, present-moment awareness, flow, oneness and harmony, *Flow Learning* effects change and growth on multiple levels of consciousness.

The model is used successfully in:

- Schools at all levels including Universities
- Hospitals
- Corporate trainings
- Social change organizations
- Churches
- Outdoor Educators
- Non-profits

“What a deeply spiritual book, filled with the essence of oneness with nature! It shows us how, through the various stages of play, we can achieve a heightened state of awareness and transcendence, expanding our consciousness, leading to an escalation in learning.”

—Mahrukh Bulsara, Co-Founder, Ecomantra Travel

JOSEPH BHARAT CORNELL is a highly regarded nature educator and author, storyteller, and meditation teacher with a genius for helping others experience life more profoundly. His highly effective outdoor learning strategy, Flow Learning, was featured by the U.S. National Park Service as one of five recommended learning theories, along with the works of Maria Montessori, Howard Gardner, John Dewey, and Jean Piaget. Cornell is the founder and president of Sharing Nature Worldwide, one of the planet’s most popular and widely respected nature awareness programs.
